

"Ashley Lappe has been in the corrections field for over seven years, beginning as a Correctional Counselor at ICIW. After working in the treatment unit, she left the institution for a position as a PO in the Mental Health Unit in the 5th Judicial District; and a few years later transferred to the 2nd Judicial District as a Psychologist in the Sex Offender Treatment Program, where she currently works. Ashley has worked at the Polk County Jail as a mental health provider in the past. She has been involved with ICA since her career in corrections began and is most recently the co-chair for the 2018 Fall Conference, as well as the CEU committee co-chair and At-Large Member. She was also on the planning committee and Entertainment Co-Chair of the 2014 ICA Fall Conference in Des Moines. Ashley is a licensed mental health counselor within the State of Iowa, SOTP-II through the Iowa Board for the Treatment of Sexual Abusers (IBTSA), and a past clinical member of the Association for the Treatment of Sexual Abusers (ATSA).

Having been a Board Member for the last year has provided me the opportunity to see how important ICA is to not only our members by providing quality training, but also by providing advocacy to our community. I have been able to see firsthand the influence that we provide as an organization and I am hoping for the opportunity to continue to have a hand in that influence. Given the changes that have taken place on a variety of levels, it is important to remain united as an organization. I would be honored to continue to serve on the ICA Board. Thank you!"
